

Date: April 7, 2014

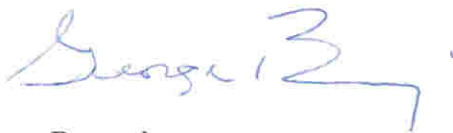

Subject: 10CFR50 Appendix B, 10CFR21 & NQA-1 Product Offerings

Garlock Sealing Technologies LLC, (Palmyra, NY location) maintains an active nuclear quality program in accordance to 10CFR50 Appendix B, 10CFR21 and NQA-1 1994 Edition Basic as detailed in our Quality Manual for select product offerings. The follow Expansion Joint styles are offered in accordance with this program:

- Style 204
- Style 204HP
- Style 206
- Style 8420HP (Style 204EPS)

Garlock Sealing Technologies LLC, (Palmyra, NY location) is periodically audited by the Nuclear Procurement Issues Committee (NUPIC) to the requirements of 10CFR50 Appendix B, 10CFR21 and NQA-1. Our last NUPIC audit was led by South Texas Project and conducted November 2013. We are also audited periodically by the Nuclear Industry Assessment Committee (NIAC). Our last NIAC audit was lead by Flowserve and conducted May 2012.

Sincerely Yours,

George Bovenzi
Director of Quality
